17 Jul 2020

1. Kindly refer to your Demi Official letter No.M.65022/01/2020-NWM/1397 dated 10 June 2020.
2. As you are aware, the Indian Army having foot print across the Nation, has undertaken numerous measures in bringing up and improving the environment through sustained and dedicated efforts. The efforts in this regard can be gauged from the fact that Military Cantonments/ Stations have the best green cover.
3. It is reiterated that detailed policy instructions have been passed to all Military Stations and Cantonments with regard to conservation of existing water bodies and Rain Water Harvesting.
4. We are also committed to utilising treated sewage water from STPs for arboriculture and in bulk of our stations have already activated double piping systems for utilising this treated water for flushing systems.
5. I assure you that Indian Army is absolutely committed to the environmental causes and will continue to undertake sustained initiatives in years to come. The campaign of National Water Mission is being spread to all Cantonments/Military Stations with an aim to 'Catch the Rain'.

With best wishes,

*Yours Sincerely
