

Dear Sir,

Greetings from Shakthi Preschool!

This is in the reference of our honourable Prime Minister's "Catch the Rain campaign" for creating awareness about water conservation and increased public participation in such efforts.

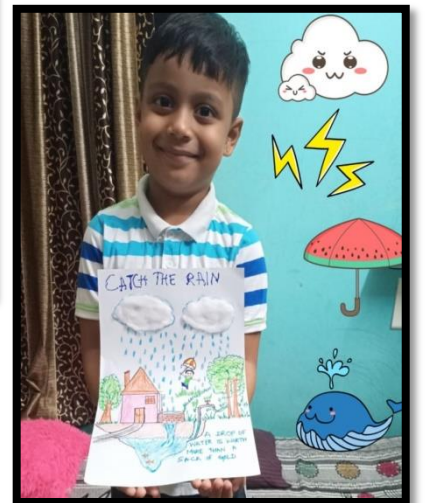

The Shakthi Preschool organised "Catch the Rain" competition on 16 Apr 2021 to bring awareness amongst the kids to understand the importance of water conservation and appreciate this valuable resource. Around 30 families participated and submitted creative crafts/models/videos.

It is a small step from the school to inculcate water saving habits to catch the rain this time and every time.

Jai Hind!

Regards
Nirmala Saxena
