

Dear Sirs,

This reply is in reference to your letter [D.O.No](#) 65022/01/2020 dated 10 June 2020 addressed to the Chairman- IIMA.

We wish to inform you as under:

Indian Institute Of Management Ahmedabad has a very good designed & installed rainwater harvesting system in the campus. This system (mainly of the Main Campus), acts also as a ground water recharge system.

The detailed report on the existing & planned Water Harvesting Structures in the Campus is attached to this mail. Construction of few Rainwater Percolation Wells is already in progress in the New Campus. Few relevant pictures are also attached.

Sewage Filtration Plants in the main campus are in the process of being installed soon. In the New Campus, they are being constructed simultaneously along with the ongoing Project Work. Grey water from Kitchens & bathrooms ,after primary filtrations is planned to be used for irrigating the huge park & garden area of the campus.

This is for your kind information please.

Thank you & Warm Regards.
